RESPONSE TO ELECTION OF SPECIES REQUIREMENT

10/10/01
Commissioner for Patents
Washington, D.C. 20231

The Office communication dated as mailed 8/28/01 states that the reply to the Office action dated as mailed 7/16/01 was not responsive for failure to elect a species. Applicant traverses the requirement to elect a species.

MPEP 803 states: "If a search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions." Applicant elected Group I (claims 1-15) in applicant's response to the Office action dated as mailed 7/16/01. Claims 1-15 include between two and four elements and are drawn to an interconnect and a circuit substrate. Interconnects and circuit substrates can be efficiently and effectively searched concurrently without serious burden to the Examiner. Therefore, applicant respectfully requests that the Examiner withdraw the election of species requirement and proceed with the examination of the application on the merits.

Respectfully submitted,

ERIK W. JENSEN

By their Representatives,

SCHWEGMAN, LUNDBERG, WOESSNER & KLUTH, P.A.
